

AMARILLO THERMO KING

September 7, 2010

To Whom It May Concern:

Amarillo Thermo King, Inc. has been doing business with CCS Systems since July of 2003. We initially began using CCS Systems for the support of our Tadiran phone system. The high quality of service that we received from CCS Systems led us to purchase our second Tadiran phone system from them in 2007.

Since the new system purchased in 2007 uses VOIP technology, I began observing how the CCS System technicians were able to work with our network support vendor in managing parts of my computer network. From this observation, I decided in May of 2010 to allow CCS Systems to manage both my telephone systems, and computer networks in Amarillo and Lubbock.

I would highly recommend CCS Systems for all your telephone, and computer network needs. The staff has always been prompt, reliable, and more than courteous when called for any problems, whether minor or major.

If you have any questions, or would like to discuss CCS Systems any further, please feel free to contact me at anytime.

Sincerely,

Brent Slaten
Secretary/Treasurer
