To whom it may concern,

Please accept this letter of recommendation for Corporate Computer Solutions Systems (CCS) as my personal letter of recommendation. The work that Monte Wright and CCS have performed for us has been exceptional and he and his company have both shown integrity and professionalism in their work.

I have worked with Monte Wright for the past 23 years when I started working for McCarty-Hull, Inc. in April of 1987 and at that time Monte was our telephone support person. As we have moved locations and upgraded systems Monte always keeps us connected and recommended systems that keep ahead of our needs and growth. When Monte changed companies we stayed with him because we liked the quality and detail of his work and that he treated us fairly and ethically. When Monte started work for CCS he continues giving us the same level of service when working on our phone system. Moving to CCS for phone support has also opened the door for us to use their network support and as with the telephone support Monte has kept us very happy with our network support. I believe at times CCS has gone beyond what is required and giving me more than our money's worth in helping setup, maintain, and support or network.

Choosing CCS and Monte Wright for designing, installing, maintaining, and supporting your telephone, network, and pc would be a great asset and ROI for you and your company.

Sincerely,

Dale Titus
Network Administrator
